

Priority One Safety Solutions provides services to make a secure workplace and to educate customers on what to do if violence occurs. Recent and past mass shootings in schools, retirement homes, and businesses in both the U.S. and worldwide demonstrates that society and the workplace is becoming more violent everyday. Employees and students should feel protected in the environment in which they work and learn.

Priority One Safety Solutions works closely with our clients by providing on-site security assessments that include a complete property security survey, a security procedure analysis, threat analysis, and employee training analysis. We then offer solutions and training to mitigate your risk by working with you to develop comprehensive workplace training programs, emergency plans, physical security and procedural strategies.

Are you prepared should disaster strike? Taking the time now to plan and prepare for potential problems can save lives. A quality assessment, followed by action plan implementation can save you money in insurance costs and lawsuits. The time to act is now....before disaster strikes.

Some of the services we provide include:

- Security Procedure Analysis & Training
- Security Assessments of Buildings & Grounds
- Connect Businesses with Law Enforcement Agencies:
Share Information on Building Plans & Emergency Procedure
- “Target Hardening” of Schools & Businesses
- Seminars to Train Employees & Students:
How to React When Violence Occurs
Seminars cover the following:
History of Shootings
Recognize Pre-Incident Indicators
Survival Mindset
Courses of Action During Active Shooter
Courses of Action During Police Arrival
