**Re: Priority One**

To Whom It May Concern:

I am so grateful for the Vulnerability Assessment that Priority One did for the Town of Chenango.

The State mandated that all public entities do a Workplace Violence Program. I am a Councilperson and have been the Safety Coordinator for the Town of Chenango for 20 years, but I still felt unprepared to write this program. After meeting with Priority One, I knew that they would provide me with the information that I needed to comply with the State mandate. They assessed our buildings for threats and safety concerns. Inexpensive solutions were recommended for many of those concerns. After receiving the assessment I am much more prepared and confident that the Town can comply with the mandate avoiding any penalties.

Chuck and Bob are wonderful to work with. They were welcomed by our staff and fondly referred to as "the men in black".

I highly recommend Priority One.

Thank You,

Rhonda Pudiak
